

Albert Galindo Mortés

UX/UI Designer

My name is Albert Galindo. I'm a UX/UI Designer, originally from Andorra and currently based in Barcelona. I studied Multimedia Engineering at La SalleURL, specializing in video game development. I'm a perfectionist designer who loves tackling complex challenges, iterating on ideas, and learning through the process. I enjoy bringing concepts to life, sharing knowledge, and constantly finding ways to make each experience better than the last.

WORK EXPERIENCE

UX/UI Designer & Creative Director FromDust Studio

01/2021 - Present,

Barcelona

FromDust Studio is an independent game studio founded in 2024, focused on creating polished F2P mobile experiences.

Tasks

- Led the full UX/UI design pipeline for the studio's main title, from concept definition to final implementation.
- Designed user flows, HUD systems, reward structures, and core UX patterns for a competitive F2P mobile title.
- Prototyped and iterated features based on player feedback, analytics, and A/B testing to boost usability and retention.
- Directed the art vision and aligned artists, programmers, and designers to maintain a consistent creative identity.

PERSONAL PROJECTS

OxySpace (01/2021 - Present)

- A competitive free-to-play 3v3 MOBA with base-building mechanics, designed for mobile.

SantiAGO (01/2025 - Present)

- The project transforms the pilgrimage journey into an interactive mobile adventure with challenges, milestones, and progression systems designed to motivate players and recreate the spirit of the route through playful mechanics.

Duelo (11/2024 - 01/2025)

- A hybrid card game that combines physical mechanics, such as a rock-paper-scissors combat system, with traditional card-game elements.
